EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

Claim 1, line 5, the recitation "a temporary master station" has been amended to --the slave station--.

3. Authorization for this examiner's amendment was given in a telephone interview with Mr. Sean M. McGinn, on December 2, 2004.

REASONS FOR ALLOWANCE

4. Claims 1-20 allowed over prior art.

5. The following is an examiner's statement of reasons for allowance: the prior art made of record does not teach an asynchronous interference avoiding method and an asynchronous interference avoiding system that enable interference to be reliably avoided through a construction such that a temporary master station performs receive/judgment of a packet for the detection of interference sent from a slave station in a temporary master station interposition-type network. Such method and system recites in claims 1 and 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2664

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Gomi et al (US 5,475,869) disclose a radio base station capable of distinguishing between interference due to collisions of outgoing call signals and an external interference noise.

Kamachi et al (US 5,678,181) disclose a mobile radio communication system capable of avoiding an interference due to collision of radio signals.

Chris J Lowdon (GB 2 302 481) discloses a system comprises base stations, some of which interfere, tethered mobile units communicating with a single BS and roaming unit.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brenda Pham whose telephone number is (571) 272-3135. The examiner can normally be reached on Monday-Friday from 9:00 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wellington Chin, can be reached on (571) 272-3134.
